Hi Deb,

This looks good.

Please see my edits in the attached, which might be useful for others to use as a starting point. I deleted a couple of my previous comments that you already addressed.

Thanks!
-Andrew

Subject: Formaldehyde susceptibility

Hello Formaldehyde Team,

I have updated the Susceptibility Section for Formaldehyde. I tried to skim through the entire TR and parts of the appendices to find new pertinent information. However, given the size of the Formaldehyde TR, I could have easily missed something important.

Please see the attached document and review any sections related to parts of the TR you wrote. Please edit as needed and indicate if I missed important information.

Ravi, there is a specific query for you that is being carried forward from a few months back.

Please provide comments, edits, etc to me by Tuesday, February 21.

Thanks!

Deb
